

Repository Design Pattern

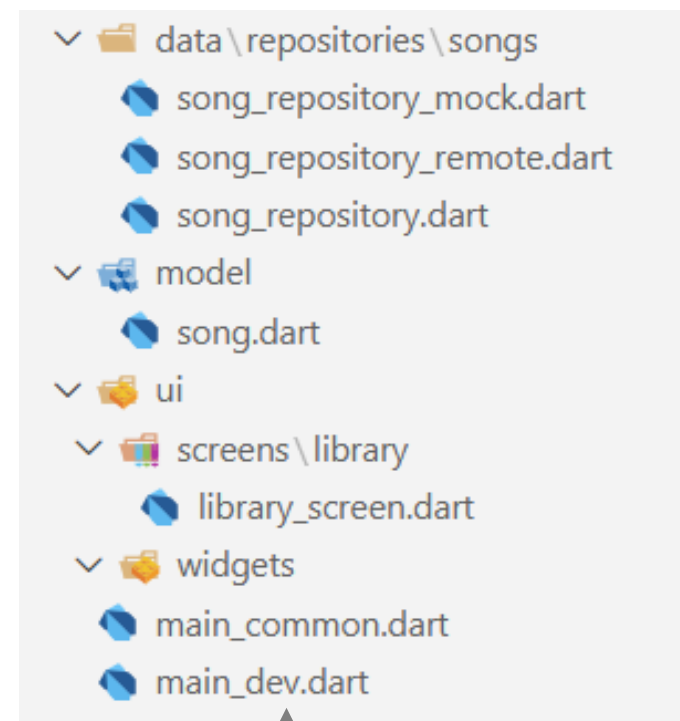

✓ Draw a **sequence diagram** to understand the **interactions** between the bellow **classes**:

- main_dev
- main_common
- multiprovider
- song repository mock
- library screen

✓ Add another **main_production.dart** that

- Inject the **song_repository_remote** into the UI

✓ **Check the list of song in the UI** by launching this main

Add another main that inject a **song_repository_remote**
To the **ui**
